BSc Computer Science website

- the website will include notes for the first year of computer science studies.
- In order to login you can either create your own account or use the following:
- https://smcse.city.ac.uk/student/adbd194/index.php
  - Username: masum.
  - Password: 1234.
- Data is written to and read from multiple tables. Last login time and name is displayed from different tables once logged in.
- If not logged in, the notes will not be available.
- On the note's pages, there is a notes section, which allows the user to add, delete and strikethrough the notes by clicking in different areas, this was achieved with JavaScript.
- Password encryption was attained via salting and md5.
- If there is an error on the registration, html validation and form based-authentication is used.
  - User feedback is present.
  - The URL will also display the error.
- The pages are fully responsive, with responsive images using bootstrap flex and grid options.
- All code which has been adapted from online resources are stated in the code.
